

Devices:

Function:

- Suicide Resistant (SR) Product designed to reduce the risk of patients gaining access to wiring at electrical outlets

Application:

- Secures outlets from tampering and unauthorized access

Features & Benefits:

- High impact, rust and smudge resistant material
- Security fasteners resist tampering
- Smooth radiused corners provide patient safety

Technical Data:

- One piece injection molded polycarbonate/nylon blend
- 3/16" plate wall thickness
- Four zinc plated tamperproof screws included
- Oversized plate dimensions: Single gang 3 1/2" x 5 1/2"
Double gang 5 1/2" x 5 1/2"

Material/Finish:

- PCW - Polycarbonate, White

Type:

- B - Blank
- G - Ground Fault Receptacle
- R - Duplex Receptacle
- SW - Switch

Capacity:

- SG - Single Gang
- DG - Double Gang

Ordering & Specifying Example:

812-S73-PCW-B-SG: Polycarbonate, White, Blank, Single Gang
