

Fabric Details:

Both ShowerShield and Sure-Chek fabrics meet NFPA 701 flame resistance standards, and are supplied with 1-1/2" wide velcro loop tape sewn to the fabric along the top hem. Optional clear vinyl panels for bottoms or tops are available

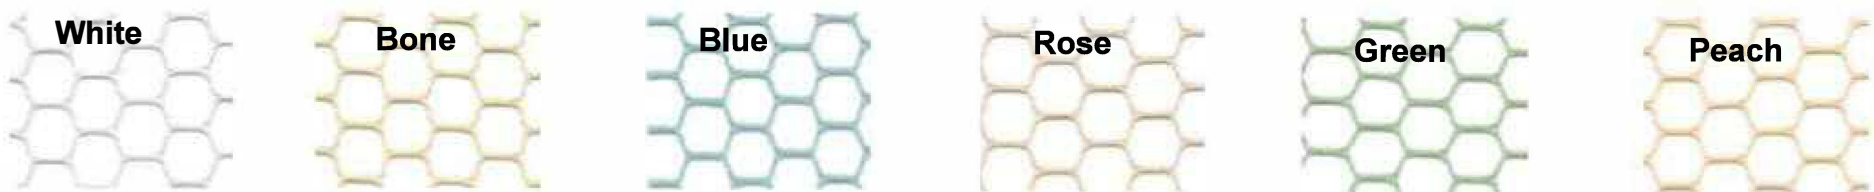

is 100% polyester, intrinsically flame resistant, Anti-microbial, and is formulated to resist bacterial growth

is a flame resistant vinyl fabric with filament reinforcement. It is stain resistant, antistatic, odor resistant and has a built in antimicrobial agent

Optional Nylon Mesh: #50, 1/2" holes. Standard mesh height is 20", other heights available

Trackset Details:

Both the ceiling hung and the wall hung tracksets are made of extruded 6063-T5 aluminum with satin anodized finish and are supplied with 3 Velcro Safety Tabs per foot. For ligature resistance, we highly recommend the ceiling mounted trackset over the wall mounted trackset. If the wall mounted trackset is selected for a behavioral health application, at least one end must be tight to the adjacent sidewall, and sealed with construction adhesive.

Ceiling Hung Trackset

Section Size: 1-7/8" x 9/16" x .062"
Used for ceiling, soffit, or inside window frame mounting. Available in straight lengths or with 12" radius bends.

Wall Hung Trackset

Section Size: 1-3/16" x 1-5/16" x .062"
For wall mounted applications where the ceiling mounted trackset would be un-mountable. Straight lengths only.

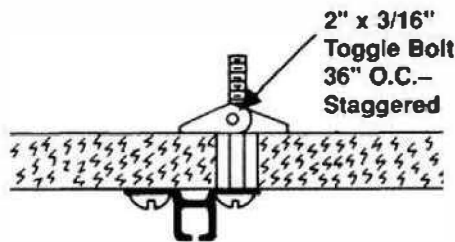

Velcro Safety Tab

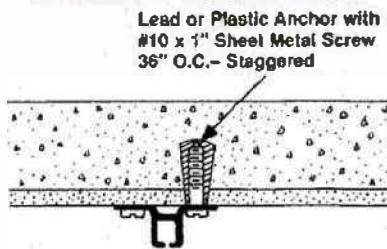

Dimensions: 4" x 3/4"
The amount of resistance provided before the curtain "breaks away" from the tab is determined by the number of tabs installed in the track.

Installation:

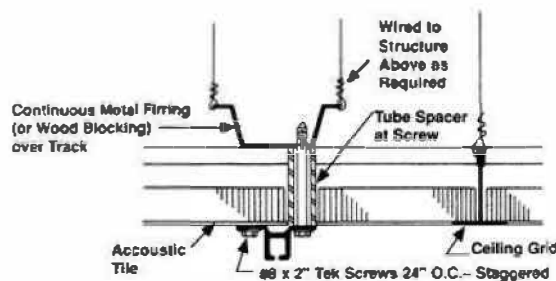

Mounting To Plaster or Gypsum Board Ceiling

Mounting To Concrete Ceiling

Mounting Through Suspended Ceiling To Furring Above

Mounting To Concrete Wall
